

# FULL MOUTH MASTERY SERIES

## Level I: Patient Evaluation with the DATA Appliance

### Two Day Session

This is where your journey to better dentistry begins.

The DATA Appliance is the heart of the Physiologically Guided Treatment System and is used in all three elements of patient care – evaluation, planning, and treatment. In Level I, you learn how to utilize the DATA Appliance to evaluate your patient for comprehensive restorative and aesthetic treatment, as well as TMD and Occlusal Disorders.

This begins with learning how to seat and adjust a DATA Appliance. Next, you are taught how to interpret your patients' response to the DATA Appliance. For most patients, this response represents the single most valuable source of information regarding their functional status. Finally, you learn how to use the DATA Appliance to obtain Verified and Validated mounted casts of your patient – the starting point for any biomechanically and psychologically sound treatment planning.

In addition, in Level I you begin learning how to use a digital SLR camera to take a complete photographic series (This will be used in conjunction with your Verified and Validated casts in Level IV to assist in your patient's functional aesthetic restorative design).

### THE DETAILS

Dates:

**May 3rd - 4th, 2018**

Class Hours:

**8:30 am - 5:00 pm**

CE Credits:

**16**

Location:

**The Center for  
Exceptional Practices**

3404 Brecksville Road  
Richfield, OH 44286

Register with Alyssa at:

**alyssa@dentalceramicsusa.com**

**Phone: (330) 523 - 5270**

**Fax: (330) 523 - 5271**

### From Level I, You Will Learn:

- The Integrated Classification System for biomechanical disorders – to understand what Occlusion, Parafunctional Activity, & TM-Joint status really are and why they are important,
- How the Physiologically Guided Treatment System and DATA Appliance are used together to evaluate, plan, & treat patients,
- Patient Problem Profiles and Treatment Paths that will be covered in this course series,
- How to seat and adjust a DATA Appliance and then use it for a bite registration,
- How to interpret patient response to a DATA Appliance,
- How to attain Verified and Validated mounted casts, and
- How to use a digital SLR to take a complete photographic series (to be utilized in Level IV).

**Disclaimer:** "DATA" is a proprietary registered trademark owned by Dr. Karl E. Hegyi for dental appliance used for diagnosing & treating Masticatory System disorders
