

FULL MOUTH MASTERY SERIES

Level V: Full Mouth Restorative & Aesthetic Treatment on a Stable Biomechanical Foundation - Part II

One Day Session

This is why you began your journey!

In Level V, you seat your patient's final restorations. This is done utilizing ideal seating methods and materials based on your tooth preparation and restoration material types.

Next, you adjust the occlusion on these restorations. Although utilizing the methods of evaluation, planning, and treatment previously taught in this series drastically reduces adjustments, it does not eliminate them. As you have previously learned, occlusal harmony is a matter of microns, not millimeters. It is just not possible to fabricate restorations this precisely. Therefore, you will learn how the DATA Appliance assists in an incredibly accurate adjustment of your restorations – just as it previously assisted in RedAddibration and creation of a Stable Biomechanical Foundation.

In addition to learning the importance of precise occlusal harmony in the Full Mouth Mastery Series, you have also learned that nocturnal parafunction is often caused by factors out of our control – and is an important issue. Therefore, you will learn what (if any) type of Night Guard is most appropriate for your patient once their restorations are completed.

From Level V, You Will Learn:

- The most appropriate cements and seating methods based on tooth preparation and restoration material types,
- How to use a DATA Appliance to refine your restorations' occlusion,
- How the DATA Appliance can often be used as a Night Guard following restoration seating,
- What Night Guard appliance design is appropriate if the DATA Appliance is not, and
- How the concepts and methods taught in this series predictably, efficiently, and profitably result in dentistry that looks better, feel better, and last longer!

THE DETAILS

Dates:

March 8th, 2019

Class Hours:

8:30 am - 5:00 pm

CE Credits:

8

Location:

**The Center for
Exceptional Practices**

3404 Brecksville Road
Richfield, OH 44286

Register with Alyssa at:

alyssa@dentalceramicsusa.com

Phone: (330) 523 - 5270

Fax: (330) 523 - 5241
